

RESOLUTION 2-1

Whereas, the Citizens' Efficiency Commission, established with the mandate of the public and appointed by the various governmental jurisdictions of Sangamon County, has produced a valuable body of work related to on-going local government efficiency and effectiveness in Sangamon County in keeping with its philosophy of objective and well-researched recommendations; and

Whereas, the current twenty-three member Commission has reached the time limitation of its statutory authority to issue recommendations in an advisory capacity; and

Whereas, the Sangamon County Board has found it of benefit to resolve to support a referendum question related to the continuation of this body's work in a nine-member renewed commission; and

Whereas, the Board has indicated that these nine members shall be recommended by the current Commission, and shall insofar as possible, be persons who are not in a position to augment their income or promote their special interests through membership on the Commission; are not selected based upon political party affiliation; are broadly representative of the community's geographic, economic, racial and cultural diversity; are knowledgeable, active, or interested in community affairs; and commit to their availability for meetings of the renewed Commission and any committees or task forces it may establish; and

Whereas, the Board has also resolved that no member of the renewed Commission may be one who holds government elective office or is employed by a unit of local government; and that at minimum three (3) of the renewed Commission members shall be those who have served on the prior Commission in order to encourage continuity of the CEC's efforts; and

Whereas, these members shall be respected and active citizens and members of the community tasked with diligently carrying out the work of the commission for the next thirty-six (36) months;
